HX MANAGER: USE-FRIENDLY MESSAGE-DESIGNING TOOL

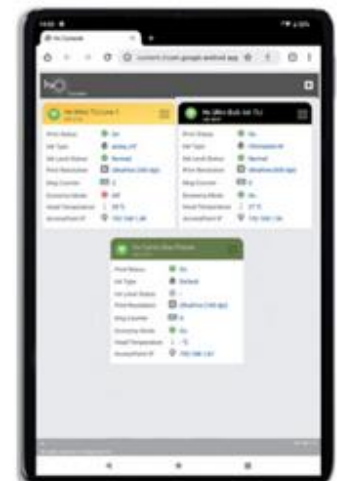

Hx-Manager is an advanced, unified platform connecting the entire Hx printers, including primary and secondary coding printers. It is accessible from a dedicated Tablet or any smart device (iOS, Android, Windows, etc.).

ADVANCE MESSAGE EDITOR (AME)

The MapleJet Advanced Message Editor is an advanced software solution that works within the Hx Manager platform, allowing operators to create, edit, and manage print messages with ease.

HX CONSOLE

With Hx Console, manage and monitor all your printers—Hx Nitro, Hx Ultro, Hx Cartro, and Hx Megalo—remotely. Design messages, adjust settings, and check printer health, all from one interface

Hx Nitro Thermal Inkjet (TIJ)

Specifications

Printing Technology
Thermal Inkjet (TIJ)
Single Head Cartridge
(Powered by Funai)

Ink Type
Dye-water based
& Solvent-based

Substrate Compatibility
Porous & Non Porous Materials

Ink Volume
33ml & 46ml

Recommended Production Size
Low Volume Production Line

Printing Position
Horizontal, Vertical,
Angled

12.7mm /
0.5"

PRO: 22/07/2024 AB98
EXP: 23/07/2025 10:30AM

IDEAL FOR SMALL TO MEDIUM SCALE MANUFACTURING AND LOW-VOLUME PRODUCTION LINES

Minimizing investment and maximizing output with advanced coding technology. No technical expertise required. Training videos available online.

Hx Nitro 25w Thermal Inkjet (TIJ)

Specifications

Printing Technology
Thermal Inkjet (TIJ)
Single Head Cartridge
(Powered by Funai)

Ink Type
Water based

Substrate Compatibility
Porous Materials

Ink Volume
46ml

Recommended Production Size
Low Volume Production Line

Printing Position
Horizontal, Vertical, &
Angled

25mm /
1"

FIRST SINGLE-HEAD 25MM (1") TIJ PRINTER PERFECT FOR CODING ON CARTON BOXES

Ideal for coding on mono cartons and porous application that require 25 mm or one (1) inch marking.

CONFIGURATIONS

Basic Unit with Tablet

RS232 Enabled

With built-in roller

MOUNTINGS

Tripod Stand

L-shaped Bracket

360 Mounting

Slider Mounting

Versatile mounting options & configurations to accommodate the specific needs of your production line

Motorized Industrial PVC Conveyor Belt 20cm x 150cm (7.8"x59")

Hx Ultra Fully-automated Solvent/Water Based Bulk Ink TIJ

Specifications

Printing Technology

Thermal Inkjet (TIJ)
Bulk Ink Cartridge
(Powered by Funai)

Substrate Compatibility

Porous & Non Porous Materials

Recommended Production Size

High Volume Production Line

Ink Type

Dye-water based
& Solvent-based

Ink Volume

160ml & 250ml

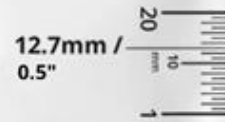

Printing Position

Horizontal, Vertical

160ml / 250ml
Ink Cassette

PRO: 22/07/2024
EXP: 23/07/2025

PERFECT FOR HIGH-VOLUME & HIGH SPEED MANUFACTURING LINES

Efficient coding and smarter savings with Hx Ultra. Ideal coding solution for high-volume manufacturing lines of fast-moving consumer goods (FMCG) such as packaged foods, beverages, cosmetics, and over-the-counter drugs.

Hx Ultra 25w Fully-automated Water-based Bulk Ink TIJ

Specifications

Printing Technology

Thermal Inkjet
Bulk Ink System
(Powered by Funai)

Ink Type

Dye water-based

Substrate Compatibility

Porous Materials

11

Ink Volume

160ml & 250ml

Printing Position

Vertical, Horizontal

The Hx Ultra 25w is a high-performance TIJ printer with a one-inch single-head cartridge and water-based ink, perfect for precise coding on porous materials like cardboard, paper, and wood.

Recommended Production Size

High Volume Production Line

Hx Ultra CodeMax

Hx Ultra CodeMax is a cutting-edge solution for flexible packaging lines, featuring a precision - engineered bracket that seamlessly integrates the Hx Ultra printer for high-quality, reliable coding to various flexible packaging lines.

Hx Cartro Carton Coder

Specifications

Printing Technology

Drop on Demand
Permanent Head
(Xaar-based)

Ink Type

Pigment Oil-based
(OK Biobased Ink Certified)

Substrate Compatibility

Porous Materials

Ink Volume

160ml

Recommended Production Size

High Volume Production Line

Printing Position

Horizontal,

160ml Cassettes

36mm/
1.4"

ROBUST, RELIABLE, AND FADE-PROOF HIGH RESOLUTION CARTON CODING SOLUTION (36MM)

Hx Cartro case coder is a robust light-weight secondary packaging printer that provides efficient, high-quality up to 36 mm print height & zero maintenance printing onto corrugated carton boxes.

Hx Megalo Large Character Carton Coder

Specifications

Printing Technology
Drop-on-Demand
Permanent Head
(Seiko-based)

Substrate Compatibility
Porous Materials

Recommended Production Size
High Volume Production Line

Ink Type
Pigment Oil-based Ink
(OK-Biobased Certified)

Ink Volume
160ml

Printing Position
Horizontal

70mm/
2.75"

HIGH RESOLUTION LARGE CHARACTER CARTON PRINTER (70MM)

Perfect for printing large character prints of up to 70mm onto corrugated boxes replacing costly print-and-apply label machines.

160ml Cassettes
