

Hx Nitro Thermal Inkjet Printer

Wi Fi
Connection

Ideal for coding on plastic bottles, plastic pouches, laminated sheets, aluminium cans, metals, and other non-porous materials

Minimizing investment & maximizing output with high-tech coding technology **for small to medium-scale production line**

Low-cost of Ownership

Equipped with advanced coding technology that offers low cost of investment to simplify your coding needs.

Maintenance-free

There is no factory maintenance needed with an Engineer to maintain the performance of the printer. When troubleshooting is required, it can be done remotely or thru quick training guide available online.

Ease of Use

Extremely easy to use with its Wi-Fi capability that allows quick message design and control of the printer using any smart device. No intensive training required.

Clean Operation

No messy ink drops in the production line. Perfect for hygienically demanding production environment.
